Sahana M

QA Test Analyst

Ph-No: 8073007351 **Email-id**: sahanamallappar@gmail.com
LinkedIn: https://www.linkedin.com/in/sahana-m-b76713241

PROFILE SUMMARY

Detail-oriented QA Test Analyst with 3.8+ years of experience in the Banking, Cards, and Payment's domain, specializing in end-to-end manual testing of web and mobile applications. Proven expertise in Functional, Regression, Integration, UAT, and API testing using swager, ensuring secure, compliant, and high-quality releases. Strong background in SDLC/STLC, Agile s Waterfall methodologies, defect lifecycle management, and risk-based testing. Experienced in collaborating with cross-functional teams and leading modules to deliver defect-free products within strict timelines.

SKILLS

• **Testing**: Test Planning & Execution, Automation Testing, Java, Manual Testing, Functional testing.
• **Frameworks**: BDD (Behavior Driven Development), Hybrid Framework, POM Pattern, Cucumber, TestNG, Test Automation Frameworks.
• **Tools**: Selenium Web Driver, Jira, Jenkins, Maven, GitHub, IntelliJ, GitHub Copilot, Rovo, Android C iOS (Sauce Labs), ALM, Octane
• **CI/CD**: Jenkins, CI/CD Pipelines.
• **API**: Swagger.
• **Database Testing**: Basic SQL validation
• Communication, Collaboration & Teamwork, Adaptability, Time Management

EXPERIENCE

QA Test Analyst August 2022 - Present
Synechron technologies private limited

Projects:
Consumer Center (Banking Credit Cards Web Application)

Consumer Center is a web-based banking application that enables users to register, make payments, view statements, manage authorized users, configure autopay, and handle multiple payment modes.

KEY RESPONSIBILITIES

- Conducted end-to-end testing, including **functional**, **regression**, **End-to-End Testing** and **automation testing** and **report bugs**.
- Participated in requirement analysis, test creation, defect tracking, and test execution, leading to a 20% reduction in defects.
- Worked within Agile methodology, contributing to sprint planning, daily stand-ups, and retrospective meetings.
- Validated Cards Payments workflows, including one-time payments, autopay setups, authorized user management, and statement generation.
- Performed Smoke testing, Functional testing, Integration testing, End to End Testing, Regression Testing, Sanity testing, Exploratory testing, Adhoc Testing.
- Improved test coverage by identifying edge cases, contributing to reduced production defects and improved release quality.
- Implemented **Continuous Integration** and **Continuous Deployment** (CI/CD) pipelines using Jenkins, reducing build and deployment time by 40%.
- Collaborated with cross-domain teams to deliver defect-free deployments under deadlines.
- **Swagger** and UI validation using URL-based validations and backend checks.
- Compared front-end application results with back-end database values.

- Partnered with product owners prioritizing test coverage, ensuring business-critical features were delivered on schedule.
- Assist in **UAT** testing activities.
- Integrated **Git** for version control, ensuring seamless collaboration and code management.
- Creating, updating and maintaining the automation testcases.
- Preparation of Automation Script using **Cucumber BDD** framework and involved in generating test execution and defect tracking reports.
- Supported **mobile testing** (Android C iOS) through **Sauce Labs simulation** and performed cross-browser compatibility testing.
- Tracking defects and Managing test cases using **JIRA** tool.
- Logged, tracked, and managed defects through the complete **Defect Life Cycle** using **JIRA**, **ALM**, and **Octane**.
- Prepared and shared daily, weekly, and sprint-end test execution and defect metrics reports with stakeholders.
- Actively engaged with Onsite coordinators and developers, participated in all the Client calls and supported clients during the absence of on shore team members.

ACHIEVEMENTS

Spot Award – November 2024:

Recognized as a key contributor for excellent support and flexibility; identified high- priority and critical defects during release regression.

Client Appreciation:

Received direct appreciation from the client for delivering a product that met the highest quality and reliability standards.

COURSES

- Certified software testing course from Qspiders testing training institute.

EDUCATION

- **Bachelor of Engineering (Electrical and Electronics)**
  Visvesvaraya Technological University
  2016 – 2020
  7.4 CGPA

- **PUC Science**
  Siddaganga PU Independent College Davangere
  2014 – 2016
  81.33%

DECLATION
