- **Tools**: Selenium Web Driver, Jira, Jenkins, Maven, GitHub, ServiceNow
- **CI/CD**: Jenkins, CI/CD Pipelines.
- **API**: Rest API, POSTMAN, JSON & XML Validation, API Response Validation, OAuth 2.0.

EXPERIENCE

QA Product Analyst March 2022 - Present
Cognizant Technology Solutions Bangalore

Projects

Toprim:

It is a web-based application belonging to e-Commerce. It allows the client to run the business online on daily basis. The modules in application are Customer, admin, and seller. This application accesses the process of selling as well as buying of the products and to avoid investment in multiple outlets.

MEM:

It is Salesforce media entertaining application, where salesforce team will use this application to add Bonus materials into the OTT platform. Bonus materials are added through creating releases, also can add key dates, Thumb lines, region of release and platform of release.

KEY RESPONSIBILITIES

- Conducted end-to-end testing, including **functional**, **regression**, and **automation** testing.
- Participated in requirement analysis, test creation, defect tracking, and test execution, leading to a 20% reduction in defects.
- Worked within Agile methodology, contributing to sprint planning, daily stand-ups, and retrospective meetings.
- Performed Smoke testing, Functional testing, Integration testing, System Testing, Regression Testing, Sanity testing, Exploratory testing, Adhoc Testing.
- Implemented Continuous Integration and Continuous Deployment (CI/CD) pipelines using Jenkins, reducing build and deployment time by 40%.
- Perform Regression Analysis daily and Report Bugs.
- Performed REST API testing using Postman to validate request/response payloads, headers, and status codes.
- Validated API responses against JSON schemas and business logic to ensure data integrity and consistency.
- Assist in coordinating **UAT** activities and gathering user feedback on software performance and usability.
- Integrated **Git** for version control, ensuring seamless collaboration and code management.
- Preparation of Automation Script using **Cucumber BDD** framework and involved in generating test execution and defect tracking reports.
- Tracking defects and Managing test cases using **JIRA** tool.
- Actively engaged with Onsite coordinators and developers, participated in all the Client calls and supported clients during the absence of on shore team members.

ACHIEVEMENTS

- **Cheers award (11/2023 - 05/2024).**

  Recognized by BU team at Cognizant for outstanding performance and dedication.

COURSES

- Certified software testing course from Qspiders testing training institute.

HOBBIES AND LANGUAGES

- I like travelling, cooking and playing sports.
- English, Hindi, Kannada.
